Double light solar wall lamp 4000k

Brand : **Groupe D.D.C**

- Autonomy : Up to 16 hours (depending on the selected operating modes)
- Diametre : 270 x 221 x 109,2
- Installation Type : Wall
- Lighting Temperature : (CCT) : 4000K + 4000K
- Lumens : 800
- Material : Aluminium +pc
- Power in Watts : 6,8w
- Product Color : White
- Weight : 0.79 kg

Reference : 728.040

Description

Dual lighting (front and rear)

30 smd 2835 leds (28 front, 2 rear)

Color temperature : 6000k (front) / 3000k (rear)

4.4w monocrystalline **solar panel**

Integrated dark sensor

Battery : li-ion 4000mah / 3.7v

Full **charge time** : 5-6 hours

Several **operating modes** available :

- **Mode A** : automatically turns on at dusk (<30lux) at 20% of its capacity and turns off 5 hours later.
- **Mode B** : automatically turns on at 100% when a movement is detected at a distance of 2 to 6 meters, then switches to low light within 20 seconds of the last movement detected.
- **Mode C** : automatically turns on 100% when motion is detected at a distance of 2 to 6 meters, then turns off within 30 seconds of the last detected motion.
