Double-sided solar bollard

Brand : **Groupe D.D.C**

- Autonomy : 23h
- Diametre : 80x22x9 cm
- Installation Type : Ground
- Lighting Temperature : 4000k
- Lumens : 2000
- Material : Aluminium
- Power in Watts : 20w
- Product Color : Black
- Protection Grade : Ip 65
- Weight : 4.08 kg

Reference : 110.032

Description

Integrated 11w mono crystalline solar panel

Battery 26650 / 6000ma/ 6.4v lifepo4

Integrated dark sensor

60° **detection angle** at 10 meters

Double infrared **motion detector**

40 high power leds

Several operating **modes available :**

Sensor mode: lights up at 100% when a movement is detected then returns to 300lm if no movement is detected for 20 seconds

Constant mode: lights up at 50% of its power (1000lumens) at dusk until dawn.
